labOS

THE LAST LIS YOU'LL EVER NEED

In a world where technology advances at lightning speed, it is crucial to choose an LIS solution that prioritizes staying ahead of the curve with the latest innovations.

Selecting the correct platform is imperative to allow your lab's growth and ensure you remain a strong player for years to come, sealing your peace of mind and competitive edge.

Meet LabOS: The Last LIS You'll Ever Need.

"HANDS OFF" AI IMPLEMENTATION

We know how painful it is for labs to replace their legacy LIS - we've seen it hundreds of times. That's why we developed our proprietary AI-implementation model to reduce the burden and get you up and running with LabOS faster than any other LIS on the market today.

A UNIFIED SOLUTION

LabOS seamlessly connects every clinical laboratory department into one powerful, intuitive system. Our all-in-one solution streamlines the entire testing workflow: from placing the order at the physician's office to specimen tracking throughout the lab's internal processes, up to client services, result delivery, and billing. LabOS enables greater efficiency and precision, ensuring faster, more accurate results while enhancing overall patient care.

LIS AS A SERVICE

Your LIS should work for you, not the other way around. LabOS' uniquely scalable, cloud-based architecture adapts to your lab's needs. Whether you're a modest hospital lab or a large, multi-site ACO, LabOS efficiently manages tens of thousands of requisitions daily across the entire lab network. We handle the complexities, so you can focus on delivering fast, accurate results.

A PATIENT-CENTRIC SYSTEM ⌄

LabOS ensures superior service:

- Clearly presented lab results and orders
- Accessible from anywhere on any platform
- Faster and better decisions
- Lightning-fast and high-quality lab service
- Continuous support for multiple result delivery policies
- Scheduled summary reports
- And more!

UNPARALLELED AUTOMATION ⌄

Automate sample receipt, results approval, delivery, and more:

- Extensive support for pre-analytical & analytical instruments
- Ensure compliance with custom lab logic for every lab protocol
- Speed up workflows & minimize errors
- Enjoy fully integrated quality control & auto-validation, including live patient data-based controls, patient results delta checks, and results cross-checking

USER-FRIENDLY AND FLEXIBLE ⌄

LabOS is built for users, delivering a modern, intuitive system:

- Task-driven interface tailored to every user's needs
- Simple, efficient, and information-rich design
- Customizable dashboards, menus, and workflows
- Intuitive counters, widgets, and graph displays
- Multi-site/multi-network support
- Multi-level permission management

ADDITIONAL FEATURES:

| ✓ Includes CP/AP/Genetics & Billing | ✓ Interface Engines Included | ✓ Fully Integrated Quality Control | ✓ Complete Reference Labs Support | ✓ Tailor-Made Add-Ons Available |

👤 EXPERIENCE

Our 100% customer retention rate speaks for itself. LabOS' sole focus is on innovative Laboratory Information Systems, supporting clinical labs and multi-site networks with complex needs.

🧠 INNOVATION

With 60% of our global team dedicated to R&D, LabOS continuously innovates to deliver best-in-class solutions. Our technology enables labs to optimize operations and drive growth.

💬 SERVICE-ORIENTED

LabOS' 24/7 support is integral to our user experience. With exclusive focus on LIS, we deliver personalized service, rapid implementations in weeks, and integrations in days.

🤝 PARTNERSHIP

Our customers' success is the #1 priority. From onboarding to implementation, we provide seamless support, ensuring a smooth and empowering journey.
